

# Water Quality Protection

## SPILL RESPONSE & CLEANUP

- Take precautionary measures to avoid hazardous substances from entering sink, floor, or storm drains.
- Anyone should report a spill (call x6999) so containment and clean up can occur before it reaches a drain.

Contain this...

...to maintain this

- Designated employees should know the location of the nearest spill cleanup materials.
- Follow proper waste disposal guidelines.  
(See [www.lbl.gov/ehs/waste/wm\\_pub\\_3092.shtml](http://www.lbl.gov/ehs/waste/wm_pub_3092.shtml) for more information on handling waste).

For more information contact Patrick Thorson, EH&S Division (x5852).
